

Outdoor Fire Pit

- Shall be fully enclosed on all sides and constructed of masonry, concrete, heavy gauge metal or other non-combustible materials
- Shall not exceed eighteen (18) inches in height when measured from the bottom of the pit to the top of the pit opening and is at least six (6) inches in height when measured from the surrounding grade to the top of the pit opening.
- Shall have an opening which does not exceed thirty (30) inches in diameter or an area of six (6) feet, whereby the width or length is not greater than thirty (30) inches.
- Shall be located on a flat level and non-combustible base and clear of overhangs such as roofs, tree branches or Utility wires.
- Shall have a spark arrestor, grill or mesh with openings no larger than ½ x ½ inches and constructed of non-combustible material and is used to cover the entire area of the outdoor fire pit.
- A minimum clearance of ten (10) feet or three (3) meters measured from the nearest fire pit edge is maintained from any structure or any combustibles (fences, trees, hydro poles) and property lines.

Outdoor Solid Fuel Fired Appliances

- Shall be fully enclosed on all sides and constructed of masonry, concrete, heavy gauge metal or other non-combustible materials
- Shall be located on a flat level and non-combustible base and clear of overhangs such as roofs, tree branches or Utility wires.
- Shall have an outdoor fuel chimney equipped with a non-combustible spark arrestor with openings no larger than ½ x ½ inch and covering the entire area of the chimney opening.

General Rules Affecting the Use of Outdoor Fire Pits and Outdoor Solid Fuel Fired Appliances

- Shall use only clean, dry wood or briquettes.
- Shall not burn garbage, rubbish, debris, previously painted or treated wood or any fuel, which when burned result in the release of dense smoke or offensive odours plus any material as defined within the legislation of Canada or Manitoba as hazardous.
- Shall be supervised and attended at all times by an adult.
- Shall not be used in conditions of severe wind or when local circumstances make such fires a hazard or when Manitoba declares fires are not permitted.
- Shall have available on site a means of extinguishing a fire such as a portable fire extinguisher or garden hose.
- Shall be extinguished before leaving the site.
- Shall be limited in size so that they can be readily controlled.
- Nothing in the by-law permits or authorizes any person to use a fire pit in a manner, which creates a nuisance to any other person.
